Gestalt Team Coaching

with Dr. Dorothy E. Siminovitch, MCC

Gestalt Africa is delighted to welcome Dr Dorothy E, Siminovitch, MCC, as guest faculty for a five-and-a-half-day course that will explore the Gestalt way of Team/Group Leadership.

Working with groups and teams is strengthened when we bring a grounded presence, the ability to hold multiple perspectives, and engage an intentional “use of self” to meet emerging challenges. Facilitating groups and teams is also a way to strengthen and hone one’s presence and use of self.

Who should attend

This course is appropriate for anybody who works in or with organisations (leaders, managers, facilitators, consultants, coaches, mentors and organisation development practitioners).

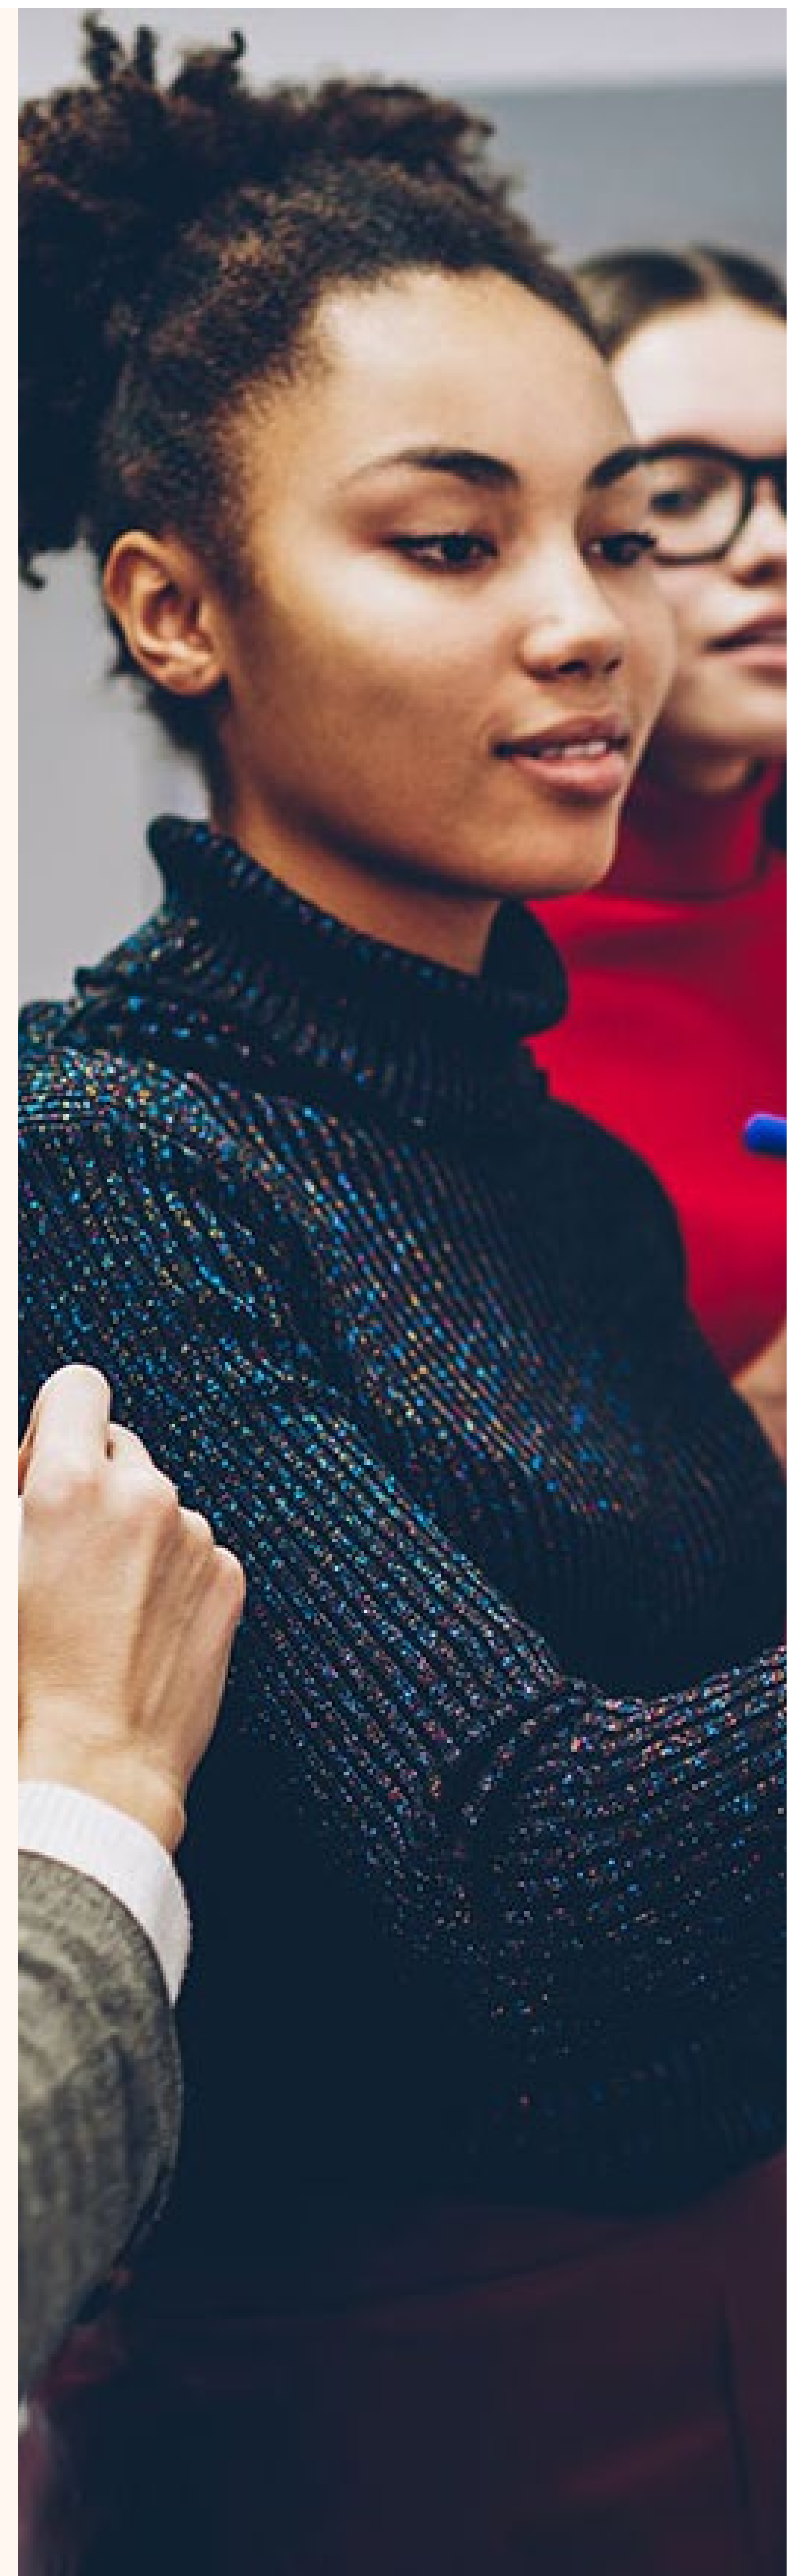

What you will get out of the course

This five-and-a-half-day experiential workshop draws from Gestalt concepts and practices to develop team leadership competencies. Participants will:

- Be introduced to the principles of gestalt Awareness Intelligence™, the synthesis of coaching presence and use of self as vehicles to strengthen learning, mindful change, and better choices.
- Learn Gestalt theory, concepts, and practices that enhance observation and intervention skills for working at all levels of group process.
- Develop the skills to recognize and track system issues, tolerate disruptions, and intervene at any level of system.
